Profile of the Divyang Marg Darshan Trust

Introduction:

The Divyang Marg Darshan Trust is a Centre for education & Sports for Special Children & Blind Sports Development in Jharkhand for children with special needs looking forward for a life full of joy and happiness. Its objective of learning through skills initiated its education programme in 2018 at Jamshedpur. The vision to have education for all was Drive amongst the trustees from their field of human resource development studies, The founding Chairperson through his profession of law felt that it is a time where education is a basic

right for all those who has not even dreamt that what education could be for them to be a part of mainstream society. Mr Raj kumar Singh and his team started Divyang Marg Darshan Trust with 20 children with intellectual impairment and by 2019 The intervention reached to 150 children with learning disabilities. This speedy coverage strengthen the founders to look forward for a new change by bringing more development initiatives and that's where more of co-related special interventions where promoted for developing activities of daily living skills and holistic rehabilitation.

The major activities taken forward:

1. Special education amongst the age group of 6 to 18 for children with learning disabilities or intellectual impairment - Under this initiative the school Focus is to strengthen the basic of daily living skills and

matching the mental age with chronicle age for classification into group based therapy. Further to it the Resource teachers imparts special education teachings through various training and learning methodologies guided under early intervention strategies. The student once identified to be enrolled into school are first taken into need-based assessment by the special educators and then after sets up the short-term and long-term goal plans for the educational and overall physical and mental growth. The team of rehabilitation professional are hired to render the services of day to day living skills, special education and need based physical, occupational and speech therapies, etc. Apart from regular services the school also takes care that classroom management and timetables are made in a routine manner so that it helps the learning needs of every individual children with intellectual impairment. Accordingly the children with autism, multiple disabilities and co-related mental retardation are classified into different age groups to achieve learning outcomes.

The school also ensures that there is a regular parents assignment so that after school studies the home based education are taken care by them. The capacity of guardians are enhance through training programmes and exposure visit organised by network partners and supporting institutions.

2. Special games and adventure activities - Under disability sports there are various provisions to create a platform for play therapy and as well as develop physical fitness through various modification within games. The organisation has a special attention to develop a sports culture amongst every individual children with special needs associated directly or indirectly with the school. Towards the promotion of games the organization has partnered with national level Sports platforms like, special Olympic Bharat, cerebral palsy sports Federation of India, & Indian Blind Football Federation together with this the organisation has also extended its network for the promotion of games for other disabilities, specially with visual impairment and hearing impairment State chapters. But most

importantly the adventure of sports is believed to be inclusive and for this organisation brings its focus more on adventure games, specially bringing forward nature adventure camps, which includes land and water activities such as; tracking, raffling, rock and wall climbing, point to point March and various water activities like, rafting, kayaking etc. The entire goal of the organisation is that all the sports have to be inclusive and shall be developing good personality skills amongst children and adults with disabilities.

Towards the development of adventure games and overall sports the trust organise Weekly programmes and events throughout the calendar year in and around the landscapes of Jamshedpur, for this the organization has also partnered themselves with national associations which are promoting adventure sports and disability sports at Rishikesh , Uttarakhand and Himalayan ranges of North east India. Locally within the district of East Singhbhum the TSAF has a close networking with Jamshedpur for constant development of nature adventure and learning through inclusive sports.

With the coming of new year 2024 the school has now planned to extend its services by opening new doors of skill development by introducing vocational, skill activities in the areas of art and craft, handicraft items, horticulture and income generation activities to help the children and adult with disabilities to excel themselves in quality living. The objective of TSAF is also to create know-how of local skill amongst children with special needs which will help them to engage economically and a part of homemaker during calamity days.

Thus making a shift in the learning through special education the special school of also is looking forward for socio-economic change in the life of person with disabilities through capacity building and inclusive development initiatives.

The trust now extend its invitation to you to come forward and support us in this endeavour of inclusive society and inclusive growth with the participation of all of us together.
